We welcome to Lifestyle Dental Karen Hogg who is a Dental Nurse and Oral Health Educator for the practice. Good luck Karen.

Over the past few years I had become increasingly unhappy with the appearance of my teeth—to the extent that I had started to put my hand over my mouth when I smiled. What a relief it was to be introduced to Nadim. He started off with a straight forward consultation and explained in understandable terms what the treatments were and how the desired results could be achieved. The best thing about Nadim is that he takes time to explain processes to you and everything is carried out in manageable stages. I have been seeing Nadim for a number months now and even though my treatment hasn't quite finished the difference in my teeth and my confidence is amazing. I have had colleagues asking me what I have had done to my teeth as they look so good and incredibly healthy.

It is not just the state of my teeth at the present that is Nadim's skill—It is also the confidence I have in him as my dentist and the future care—I know he will take care of my oral appearance and hygiene for many years to come.

I have such confidence in Nadim that I have recommended him to friends— who have contacted him and are now patients at his clinic.
